

BOOMS & PILLOWS:

# OIL PILLOW

## DESCRIPTION

Hydrocarbon Pillows are manufactured using XT HydroAbsorb, which is a natural, environmentally friendly absorbent.

The Pillows will biodegrade the encapsulated hydrocarbons.

## APPLICATIONS

Booms & Pillows have a broad range of applications:

- Paper Mills and other process industries use Booms and Pillows around leaking equipment and contain spills on water or land.
- Petroleum Distribution Operators use Booms and Pillows to contain spills, or for emergency containment during transport delivery. Pillows are non-abrasive and are excellent for wiping petrol spills off motor vehicles.
- Maritime use Booms and Pillows around leaking equipment and contain larger spills to open water.
- Aircraft use Booms and Pillows to contain fuel, oil and glycol spills.
- Spill Response Teams use Booms and Pillows to contain spills on roadways or waterways.

## FEATURES AND BENEFITS

- Non-toxic, biodegradable
- High absorbency means less product is required to clean up spill
- Less material is hauled to landfill or incinerator
- Can be incinerated. Emits 7,000 BTU's with less than 5% ash.
- Floats on water while absorbing Hydrocarbons

## PACKAGING

Pillows: 500mm x 500mm x 90mm  
Various sizes available on request

## TESTING

SABS - Testing to SANS 339:2007

BOOMS & PILLOWS
